

CAULKING GUNS

Pneumatic & Electric Series

euromac
PROFESSIONAL FOAM GUNS

Pneumatic Series

CAULKING GUNS

KEY FEATURES

1

BODY AND RING NUTS

Machined from solid aluminum body and ring nuts providing high resistance over time.

2

MICRO PRESSURE REDUCER

It adjusts and stabilizes pressure in order to guarantee constant force and speed.

3

QUICK RELEASE VALVE

Upon release of trigger, air is instantly emitted and product extrusion immediately stopped, therefore preventing material being applied outside the desired area, dripping and imperfections during extrusion.

CG-PA601

300-600 ml sausage | Max. Force: 1600 N (8 bar) | Pressure: 4-8 bar | Noise level: <80 dBA | Connection: ¼ male gas

CG-PA301

300-310 ml silicone cartridge
300-400 ml sausage
Max. Force: 1600 N (8 bar)
Pressure: 4-8 bar
Noise level: <80 dBA
Connection: ¼ male gas

CG-PA600

300-400 ml silicone cartridge
300-600 ml sausage
Max. Force: 900 N (8 bar)
Pressure: 4-8 bar
Noise level: <80 dBA
Connection: ¼ male gas

CG-PA611

300-600 ml sausage
Max. Force: 1600 N (8 bar)
Pressure: 4-8 bar
Noise level: <80 dBA
Connection: ¼ male gas

Electric Series

CAULKING GUNS

1

HEAVY DUTY FRAME/TUBE

Dripless function (auto-reverse).
Overload shut-off function protects cartridge and engine against damage.

2

LONG DURATION BATTERY

Lithium-Ion battery without memory loss effect. Gun with fully charged battery extrudes up to 100 cartridges.

3

EASY CONTROL

Speed control by trigger and regulator.
Easy control of material flow.

CG-CA382

380-410 ml (10:1) co-axial cartridges | Pushing power: 6000 N +/- 10% | Battery: up to 40 cartridges

CG-CA312

310 ml silicone cartridge
Pushing power: 4500 N +/- 10%
Battery: up to 100 silicone cartridges

CG-CA602

310-400 ml cartridges / 400-600 ml sausage
Pushing power: 4500 N +/- 10%
Battery: up to 100 silicone cartridges

CG-CA345

345 ml (10:1) side by side cartridges
Pushing power: 6000 N +/- 10%
Battery: up to 40 cartridges

CG-CA442

400 ml (1:1) side by side cartridges
Pushing power: 6000 N +/- 10%
Battery: up to 40 cartridges

CG-CA585

385 ml & 585 ml (3:1) side by side cartridges
Pushing power: 6000 N +/- 10%
Battery: up to 40 cartridges

CG-CA662

600 ml (1:1) side by side cartridges
Pushing power: 6000 N +/- 10%
Battery: up to 30 cartridges

EUROMAC Company,

located in Gdynia, is an international supplier of high quality professional foam guns. We consistently enlarge product ranges to meet customers' requirements. With our highly qualified and trained staff you can depend on cost-effective and convenient products. Our consultants are available to provide technical support at every stage of the production process. Many years of experience, superior service and customer satisfaction make us one of the leaders in the commercial contractors market.

Adaptation and flexibility are key features in the product development process. We offer you the possibility of differentiating yourself in relation to your competitors by customized labelling of our products with your logo. We also know that our customers value the delivery reliability. The finished products are delivered in Europe within 7 working days.

Most of our total production goes to export. We ship to over 30 countries worldwide and handle all types of consignments from full load containers to small express parcels. We offer a secure delivery thanks to our cooperation with companies such as DHL and SCHENKER.
